

M e m o r a n d u m

Date: April 19, 2010

To: Inland Division

Attention: Chief J. P. Talbott

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.17044.010

Subject: 2010 COMMAND PROPERTY INSPECTION REPORT

State Administrative Manual (SAM) Section 8652 requires Departments to conduct a physical count of all state owned property and reconcile the count with accounting records at least once every three years. Departmental records indicate the last command inventory by Inland Division and corresponding Division units was conducted on June 26, 2009. In order to provide independent verification and reasonable assurance to the Office of the Commissioner that California Highway Patrol inventory records are complete and accurate, your Division was selected for a property inspection.

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your Division's property, including vehicles and weapons, was completed by the Property Inspector (PI) on March 9-10, 2010, and March 23, 2010. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI chose items within your Division and compared them to the appropriate inventory records. The complete property count list (Division office and Division units) is summarized in Attachment G.

According to the OPI inventory lists, the Division office and corresponding Division units had a combined total property inventory population of 2,627 items (a). The statistically-valid sample at a 95 percent confidence level \pm 5 percent error rate provided a total stratified sample size of 453 items when rounded up to the next whole number (d). The stratified totals for the Division office and Division units are summarized in Attachment G.

Safety, Service, and Security

When comparing equipment recorded on the predetermined property inspection list to equipment located within the Division office and the 10 Division units, 424 of the 453 items were located. Twenty items were transferred out of the Division, six items were unavailable due to an employee being on vacation and three items could not be located (flash unit, mobile radio and mobile repeater). The Division has been aware of two of the missing items for several years and they remain missing (mobile radio and mobile repeater). Furthermore, three of the 424 located items require a correction be made to the property record and six items were noted to need a replacement tag. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located within the Division are summarized in Attachment A.

When comparing equipment assigned to the Division to the OPI inventory lists, 12 of the 12 items reconciled.

I request your Division office and respective Division units research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections through the Office of the Assistant Commissioner, Field by July 2, 1010.

Furthermore, in accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the CHP's internet website, and on the Office of the Governor's webpage, located on the State's Government website.

The Office of Inspections would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3160.

M. C. A. SANTIAGO, CIG, CLEA
Assistant Commissioner
